“Butterflies of Europe & the Mediterranean area”
Vadim Tshikolovets in collaboration with numerous eminent and highly experienced lepidopterologists and photographers
Covers the whole of Europe (from Atlantic islands to Ural mountains), N. Africa (from Morocco to Egypt), Asia Minor and Near East
Covers 703 species
Over 10000 unique colour illustrations:
- 7000 collection specimens including subspecies, many rarities, type specimens
- 2000 photographs of butterflies in nature, many species figured for the first time
- 1000 photographs of habitats and landscapes including historical photos where habitats were destroyed
More than 700 colour distribution maps including different colour markings for different subspecies.
Text covers nomenclature, distribution, habitat, flight period. All information (text, map and illustrations) presented on the same page.
